

Accurate Screw Machine

Accurate Screw Machine's Quality policy is to provide products and services that always satisfy its customers' requirements and expectations. The company operates an AS 9100/ISO 9001 Quality Management System and continually improves the Quality Management System to support this statement.

The Quality Management System is regularly, reviewed for acceptability and the ability of the enterprise to meet its established objectives:

- **Building quality into all manufactured products and provided services**
- **Delivering on-time and on-quality products and services**
- **Enhancing employment stability through success**

Accurate Screw Machine management is committed to this policy and directs its implementation throughout all levels and functions of the organization.

James Margiotta
General Manager
